

Investigator(s):

Robert B. Fick, Associate Professor, Department of Internal Medicine; Peter S. Thorne, Assistant Professor, Preventive Medicine and Environmental Health; David A. Schwartz, Assistant Professor, Department of Internal Medicine

Project Title:

Neutrophil Activating Cytokines in the Lung Disease of Grain Handlers

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Burton Kross, Assistant Professor, Department of Preventive Medicine and Environmental Health; R. William Field, PhD Candidate, Department of Preventive Medicine and Environmental Health

Project Title:

A Survey of Radon-222 in Private Well-Water Supplies in Iowa

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Jerald L. Schnoor, Professor, Department of Civil and Environmental Engineering; Dahileepan R. Nair, PhD Candidate, Department of Civil and Environmental Engineering

Project Title:

Atrazine Metabolites in the Subsurface Environment: Assessment of Potential Exposure

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Elaine Smith, Associate Professor, Preventive Medicine and Environmental Health; Laurence Fuortes, Faculty Associate; Preventive Medicine and Environmental Health; Craig Zwerling, Faculty Associate; Preventive Medicine and Environmental Health; William Popenorf, Professor, Preventive Medicine and Environmental Health

Project Title:

The Association Between Farm Exposures and Female Reproductive Conditions

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Michael W. Peterson, Assistant Professor, Department of Internal Medicine

Project Title:

Effect of Asbestos on Pulmonary Epithelial Cells

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Craig Zwerling, Faculty Associate, Department of Preventive Medicine and Environmental Health; Thomas Cook, Assistant Professor; Department of Preventive Medicine and Environmental Health; William F. Blair, Professor, Department of Physical Therapy

Project Title:

Development of Self-Administered Questionnaires to Assess Psychosocial Factors Associated with Occupational Cumulative Trauma Disorders of the Upper Extremity

Year Funded:

1991

Amount Received:

\$10,000

Investigator(s):

Pope L. Moseley, Assistant Professor, Department of Internal Medicine

Project Title:

Asbestos-Induced Cell Transformation

Year Funded:

1991

Amount Received:

\$10,000
