

Investigator(s):

Stephen J. Reynolds, Assistant Professor, Department of Preventive Medicine and Environmental Health; Sean Maher, PhD Candidate, Department of Preventive Medicine and Environmental Health; Peter S. Thorne, Associate Professor, Department of Preventive Medicine and Environmental Health

Project Title:

Particulate Exposures in Refuse Derived Fuel Plants

Year Funded:

1993

Amount Received:

\$10,000

Investigator(s):

Nancy A. Lynch, Faculty Associate, Department of Microbiology; David T. Gibson, Professor, Department of Microbiology

Project Title:

Detection of Bacterial Degradation Activity by Enzyme Immunoassay

Year Funded:

1993

Amount Received:

\$10,000

Investigator(s):

Peter S. Thorne, Associate Professor, Preventive Medicine and Environmental Health; Shari Bleuer, Research Assistant; Preventive Medicine and Environmental Health; David A. Schwartz, Associate Professor, Internal Medicine

Project Title:

Development of Physiologic Monitoring for a Two Strain Inhalation Toxicology Mouse Model

Year Funded:

1993

Amount Received:

\$10,000

Investigator(s):

Pedro J. Alvarez, Assistant Professor, Department of Civil and Environmental Engineering; Bradley R. Helland, MS Candidate; Department of Civil and Environmental Engineering; Jerald L. Schnoor, Professor, Department of Civil and Environmental Engineering

Project Title:

The Role of Elemental Iron in Enhanced Reductive Dechlorination of Carbon Tetrachloride

Year Funded:

1993

Amount Received:

\$10,000

Investigator(s):

Richard L. Valentine, Associate Professor, Department of Civil and Environmental Engineering; Christopher M. Miller, PhD Candidate, Department of Civil and Environmental Engineering

Project Title:

Toxicity Reduction of Pesticide Contaminated Soils Found at Fertilizer and Agrochemical Dealer Sites

Year Funded:

1993

Amount Received:

\$10,000
