

Investigator(s):

Richard J. Milchak, Department of Internal Medicine; Joel N. Kline, Associate Professor, Department of Internal Medicine; Geoffrey McLennan, Professor, Department of Internal Medicine; Eric A. Hoffman, Professor, Department of Radiology

Project Title:

High Resolution CT-Based Evaluation of Airway Responses to Endotoxin Inhalation

Year Funded:

2004

Amount Received:

\$20,000

Investigator(s):

Katarina Kulhankova, Department of Occupational and Environmental Health; Peter S. Thorne, Professor, Department of Occupational and Environmental Health; Caroline S. George, Assistant Professor, Department of Pediatrics; Geoffrey McLennan, Professor, Department of Internal Medicine; Joel N. Kline, Associate Professor, Department of Internal Medicine

Project Title:

The Role of Neonatal and Juvenile Inhalation Exposures on Pulmonary Hyperresponsiveness and Lung Growth

Year Funded:

2004

Amount Received:

\$20,000

Investigator(s):

Caroline George, Department of Pediatrics; Jeanne Snyder, Professor, Department of Anatomy and Cell biology; Joel Kline, Associate Professor, Department of Internal Medicine; Patrick O'Shaughnessy, Associate Professor, Occupational and Environmental Health; Peter S. Thorne, Professor, Occupational and Environmental Health; Frank McCormack, Associate Professor, Department of Internal Medicine, University of Cincinnati

Project Title:

The role of surfactant protein-A during early life environmental exposures

Year Funded:

2004

Amount Received:

\$20,000

Investigator(s):

Prabhat C. Goswami, Assistant Professor, Department of Radiation Oncology

Project Title:

Polychlorinated Biphenyls, Intracellular Antioxidants and Cellular Proliferation

Year Funded:

2004

Amount Received:

\$20,000
