

Investigator(s):

Katarina Kulhankova, PhD Candidate, Occupational & Environmental Health; Peter S. Thorne, Professor, Occupational & Environmental Health; Elizabeth H. Field, Professor, Department of Internal Medicine

Project Title:

Role of fetal and perinatal allergen exposures in pulmonary and immune hyperresponsiveness

Year Funded:

2006

Amount Received:

\$30,000

Investigator(s):

Gregor Luthe, Postdoctoral Research Scholar, Occupational & Environmental Health; Peter S. Thorne, Professor, Occupational & Environmental Health; Larry W. Robertson, Professor, Occupational & Environmental Health

Project Title:

Pulmonary exposure to airborne polybrominated diphenyl ethers (PBDEs), using promising novel biomarkers

Year Funded:

2006

Amount Received:

\$30,000

Investigator(s):

Tom Peters, Assistant Professor, Occupational & Environmental Health

Project Title:

Relating cardiac function to diesel exhaust inhalation exposure

Year Funded:

2006

Amount Received:

\$8,500
